

Tech Rider (EN)

Technical stage instruction

The Technical Rider is an integral part of the guest performance contract between the band „The Late Night Call“ and the organizer. If there are problems with the fulfillment of individual points, we ask for short consultation, so that appropriate solutions can be found.

FOH technician

During the sound check and the band's performance, at least one friendly system technician must be present who is familiar with all aspects of the sound and lighting system.

We bring

- All necessary instruments and amplifiers
- Own in-ear monitoring (digital mixer, headphone amplifier, splitter, XLR snake)
- 1x microphone stand for main vocals

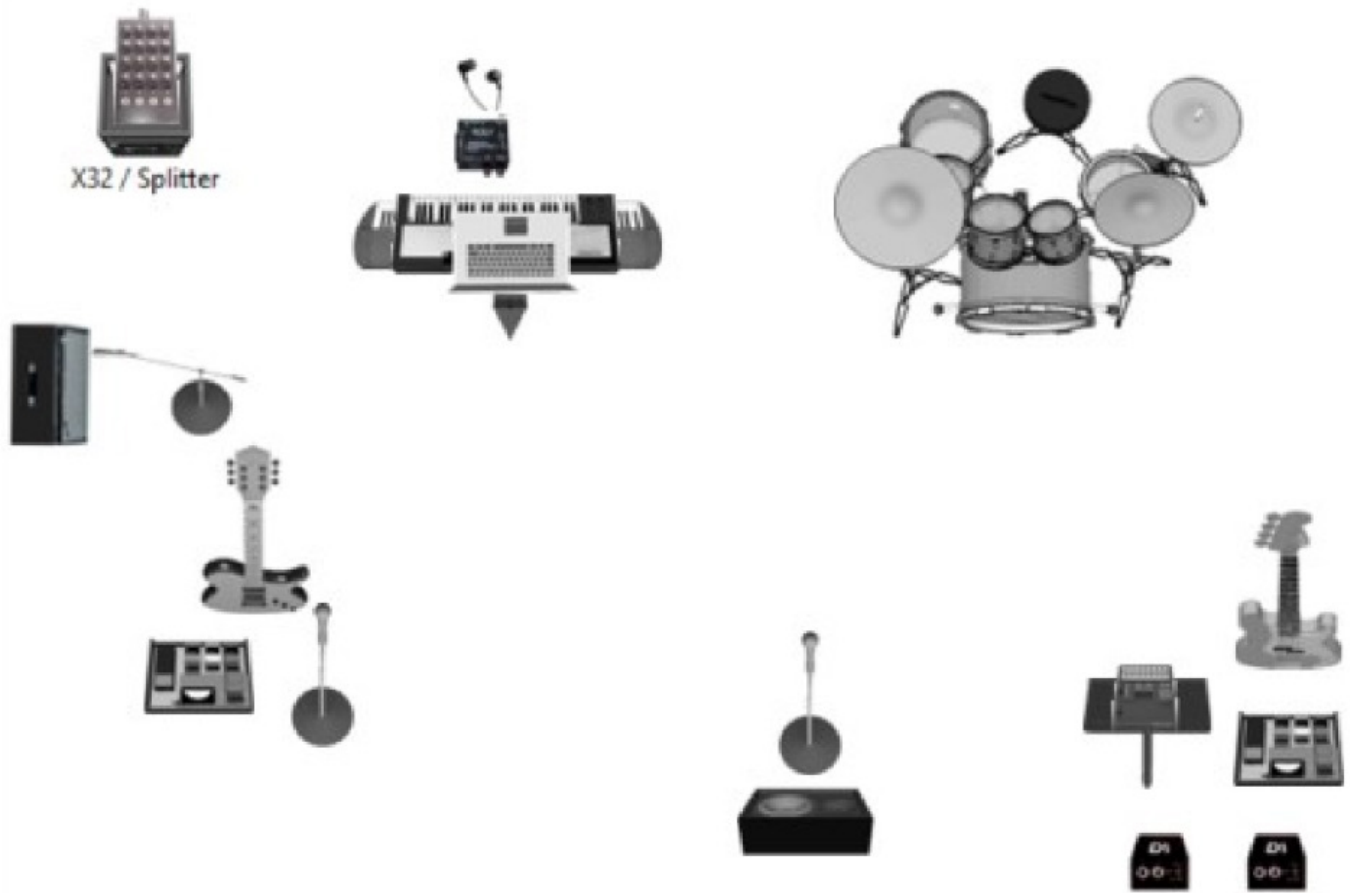

We need from you

- An empty stage
- Electricity 230 V
- Professional microphone • 1x Monitorbox
- 2x DI-Box
- One system technician (sound)
- One light technician

Changes are possible in principle, but require consultation with us. We look forward to a good cooperation and a good time.
